

High Frequency PVC & PTFE Welding Machines : Station and Movable

PARAMETER

POWER Range / 功率:	15KW	25KW
Input Power / 输入功率:	25KVA	35KVA
Suitable Welding Area / 焊接面积:	400CM2	600CM2
Oscillation Tube / 电子管:	8T85RB	8T25RA
Welding Length / 焊接长度:	<1520 MM	
Power Supply / 电源:	3P * 380V * 50Hz	
Working Frequency / 工作频率:	27.12Mhz	
Rectifier / 整流器:	Silicon Diode	
Drive Mode / 驱动方式:	Pneumatic	
Arc suppressor / 火花:	High Sensibility PL-5557	
Suitable Material / 适用材料:	PVC or any fabric contents PVC .	
Cylinder working stroke / 气缸行程:	150mm (customization offered)	
Welding Time / 焊接时间:	0-30 S adjustable (customization offered)	

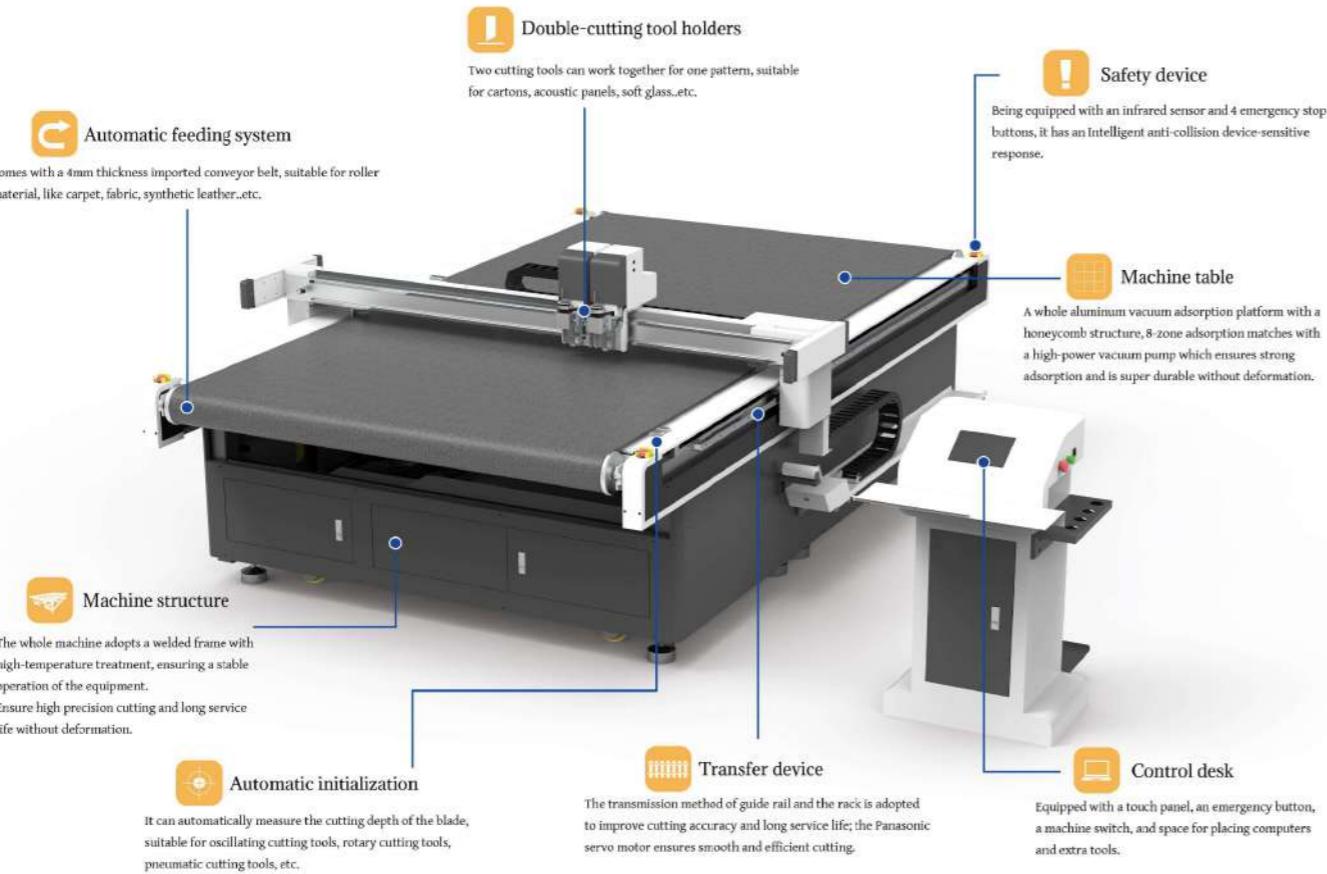

PARAMETER

POWER Range / 功率:	10KW	15KW	25KW
Input Power / 输入功率:	15KVA	25KVA	35KVA
Suitable Welding Area / 焊接面积:	250CM2	400CM2	600CM2
Oscillation Tube / 电子管:	E3069	8T85RB	8T25RA
Power Supply / 电源:	3P * 380V * 50Hz		
Working Frequency / 工作频率:	27.12Mhz		
Rectifier / 整流器:	Silicon Diode		
Drive Mode / 驱动方式:	Pneumatic		
Arc suppressor / 火花:	High Sensibility PL-5557		
Suitable Material / 适用材料:	PVC or any fabric contents PVC .		
Cylinder working stroke / 气缸行程:	150mm (customization offered)		
Welding Time / 焊接时间:	0-30 S adjustable (customization offered)		

Inteligente Cutter Machine

Product Details

Watad Al Khaima

Watad Al Khaima is specialist distributor of technical fabrics and accessories, related to shading and tent industry. We are supplying all types of Shade cloths, like HDPE, PVC fabric in different coatings (acrylic, PVDF,...) with best characteristics Fire Retarding (FR) Anti-Fungal, UV protection. We are representing many European brands like

With more of 20 years of experience in the industry from cmopany owner we selected the best quality internationally and the best technical support.

A satisfied customer is the best business strategy of all

وتـد الخـيـمة هـيـ : مـوزـع مـتـخـصـص لـلـقـمـشـة التـقـنـيـة
وـالـإـكـسـسـوـارـاتـ الـمـتـعـلـقـةـ بـالـتـظـيلـ وـصـنـاعـةـ الـخـيـامـ

Technical Fabrics

PVC COATED FABRICS

PVC fabrics are engineered to be easily welded with either a high frequency or a hot air process. The material is designed to be foldable but does require expert handling during the fabrication process packaging, and proper tensioning to the surface to yield the desired look. PVC fabrics are engineered for durability and to ensure proper performance.

RANGE OF PRODUCTS

PVDF PRODUCTS

Extremely alurable high gloss PVDF top coat on both sides
Titanium-dioxide coating for perfectly bright colors
Excellent weldability
Flame retardant
Warrenty: 10 years (conditions apply)
Roll size: 3m by 50m (Length can be customized)

700 grs

900 grs

1050 grs

ACRYLIC PRODUCTS

High Gloss Lacquered
Very Smooth welding
UV and Weather resistant

Warranty 5 years (conditions apply)
Roll size: 3m by 50m (Length can be customised)

450 grs

750 grs

900 grs

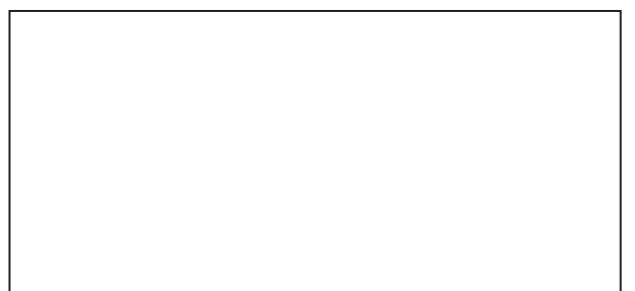

Tents Fabrics & Accessories

Coated bath sides with low light translucency UV and fungus resistant High-frequency and hot-air weldable Excellent weatherability and durability
Lacquered on both sides
Flame retardant
Application : Tents, Marquees, Events
Warranty 5 years (conditions apply)
Roll Width: 2,50m / 3m / 5m

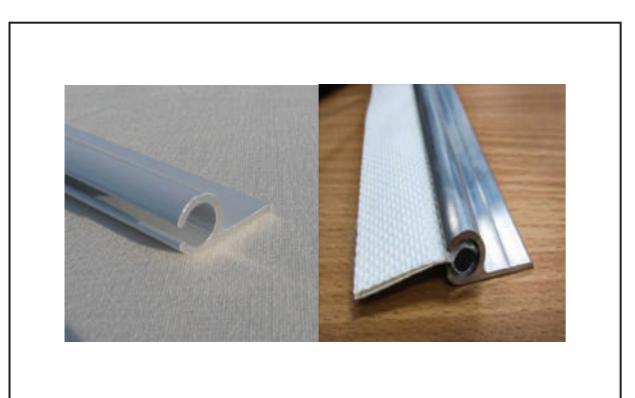

Blockout 850 grs

Keder Fabric

Aluminium Keder Fabric

HDPE Fabric

HDPE Shade Cloth is typically used when the shade is the primary requirement and waterproof fabric is not necessary. Shade cloth is knitted as opposed to woven like most other fabrics. The fabrics relatively inexpensive and with several manufacturers, there are several colors to choose from.

Available in different GSM:

325 grs/sqm, 340grs/sqm, 430 grs/sqm,

Professional Grommet Machine

Eylets
